QUALITY

The Tulip, Daffodil and Hyacinth, Crocus, Scillas, etc., offered in this folder are not just top-size but selected Jumbo top size bulbs.

Our top quality bulbs are carefully selected for us from the fields of Holland. Bulb experts carefully watch each operation to see that only the best of the crop and only top grade bulbs are shipped to us. Thus when you buy our bulbs — you get the cream of the crop — **QUALITY.**

Warning — never use manures with bulbs as they cause the bulbs to rot. Bonemeal or a balanced commercial fertilizer with peat moss is best for bulbs. All bulbs need good drainage.

BONEMEAL

The perfect fertilizer — use some with every bulb you plant.

Make The Most of Nature

For best results with bulbs the soil must have good drainage so that strong root systems are developed. Heavy soil should be loosened up with peat moss or sand. Protect from winter damage by covering with a mulch after the first frost and uncover in early Spring. Water planting in early Spring for lack of moisture often stunts growth.

The unexpected color note of a seemingly accidental — yet planned — planting heightens immeasurably your garden interest. Daffodils are by nature informal flowers and most effective for that unexpected color note. Scatter them by handfuls and plant where they fall, among shrubbery and under trees.

Our naturalizing mixture is an exceptional offer containing all kinds of Daffodils — all are beauties, hardy and of the highest quality.
